

**CONTENTS****Membrane softening**

- 1 Blending and post-treatment protocols for SDWA compliance – Hollywood (FL) water plant  
by Bruce M. Watson, C.D. Hornburg, and Ron Collins
- 11 Membrane softening versus lime softening in Florida: A cost comparison update  
by Robert A. Bergman
- 25 A low pressure reverse osmosis facility for Marco Island (FL)  
by Robert Kadaj, David McMillan, and John Losch
- 27 A comparison of membrane softening on three South Florida groundwaters  
by Francis E. Duran, and Glenn W. Dunkelberger

**Membrane filtration for particulate and organic control**

- 35 Examination of processes for multiple contaminant removal from groundwater  
by Christopher J. Martin, Ernest O. Kartinen, Jr., and Jim Condon
- 47 A pilot study on groundwater natural organics removal by low-pressure membranes  
by Paul Fu, Hector Ruiz, Jim Lozier, Ken Thompson, and Carl Spangenberg
- 57 The use of membrane filtration in conjunction with coagulation processes for improved  
NOM removal  
by James C. Vickers, Mark A. Thompson, and Uday G. Kelkar
- 63 Design, permitting and construction of a membrane treatment facility:  
The New Rochelle (NY) experience  
by Elliott D. Schwartz and Laurence L. Murphy
- 77 Usefulness of networking in membrane plant design and operation  
by J. Edward Burke, Mike Mickley, Jeffrey Truesdall, and Robert L. Hamilton

**Concentrate disposal**

- 81 Case study: Integrating membrane processes with evaporation to achieve economical  
zero liquid discharge at the Doswell Combined Cycle Facility  
by Anita Seigworth, Rodi Ludlum, and Eugene Reahl
- 87 The regulation of concentrate disposal in Florida  
by J. Kent Kimes
- 93 Survey of membrane drinking water plant disposal methods  
by Jeffrey Truesdall, Mike Mickley, and Robert Hamilton
- 107 Desalting residuals: A problem or a beneficial resource?  
by William R. Everest and Troy Murphree

**Alternative financing for desalination projects**

- 119 Project financing of desalination facilities  
by Adam Wenner and Edwin F. Feo
- 155 Innovative independent power plant financing applied to desalination plants  
by David F. Walden and Michael Goren
- 163 Innovative wastewater reclamation financing applied to desalination projects  
by David G. Houston

### **Seawater reverse osmosis desalination**

- 171 Proposed Marin Desalination Plant – Siting criteria, evaluation and results  
by Robert F. Young
- 179 Conventional pretreatment system for Doha Reverse Osmosis Plant: Technical and economic assessment  
by Sadeq H. Ebrahim, Mahmoud M. Abdel-Jawad, and M. Safar
- 189 Low cost incremental seawater plant capacity increase by coupling advanced pumping and reverse osmosis technologies  
by Eli Oklejas, Irving Moch, and Kent Nielsen
- 199 Whatever happened to seawater desalting in the US? (Can the trend be changed?)  
by Gordon F. Leitner
- 209 Reactivating after 11 years a 3 mgd seawater RO plant in Florida  
by Ronald E. Benson and Irving Moch
- 219 The pressure exchanger – A key to substantial lower desalination cost  
by Leif J. Hauge

### **Alternative proposal approach**

- 225 Indian River Plantation: The evolution, 16-year history and operating experience of the oldest reverse osmosis water treatment plant on Hutchinson Island (FL)  
by William K. Hendershaw, John D. Lyle, and Charles G. Harris
- 235 Biofouling of PVD-1 reverse osmosis elements in the water treatment plant of the City of Dunedin (FL)  
by Robert P. Carnahan, Lynn Bolin, and William Suratt
- 245 Desalting in Cape Coral (FL) – An operating update  
by Shawn Kopko, Mark Seamans, Julia E. Nemeth, and Ian C. Watson
- 255 Case history: Pharmaceutical WWTP upgrade SmithKline Beecham Pharmaceuticals Co., Cidra, Puerto Rico  
by Antonio Garcia, Hector M. Rivas, Jorge L. Figuera, and Alex L. Monroe

### **Seawater desalination**

- 265 Addition of dimpled plate type effects to existing MED plant increases capacity, performance ratio and scale control  
by Carl L. Elmore
- 269 An assessment of desalination technology for the Rosarito Repowering Project  
by Ismat Kamal
- 279 Co-located seawater desalination/power facilities: practical and institutional issues  
by Robert R. Yamada, Jack K. Laughlin, and Dennis K. Wood

### **New or unique membrane applications**

- 287 The treatment of groundwater containing hydrogen sulfide using microfiltration  
by Mark A. Thompson, Uday G. Kelkar, and James C. Vickers
- 293 Reverse osmosis treatment of municipal sewage effluent for industrial reuse  
by Michael Wethern and William Katzaras
- 301 Treatment of fuel oil and crude oil contaminated waters by ultrafiltration membranes  
by Berrin Tansel, Jayadev Regula, and Robert Shalewitz
- 313 Membrane treatment is versatile – A single treatment facility producing boiler feed, food processing water, and drinking water  
by Mark D. Miller and John E. Potts
- 321 An electrolytic chlorination system for pretreatment and post-treatment in desalination systems  
by Donald C. Brandt

- 325 **Author index**
